

TECHNOCRANE 22 is the perfect tool for a new generation of lightweight video cameras. This especially fast and programmable telescopic camera crane convinces with its total weight of only 327 kg including counterweights, which allows easy transport (e.g. in a mini van) and a fast rigging. In combination with the Pan Bar control unit, the system may be operated quite easily and comfortably. TECHNOCRANE 22 is also a most suitable gear as a car mount, for example in combination with the eViking by CCP systems.
